

Evgeni Kostitsyn /Lyrics and music/

Eat More Beans to Produce More Gas!

/for tenor or baritone and symphony orchestra/

in Russian, German and English. Jan 25, 2009. 3'

Warm Mineral Springs, Florida.

Epigraph: "The gas is coming. Yesterday we wrote that Russia opened the taps, and now the first gas has arrived to Hungary. That is great news, and the Hungarians no longer have to listen to advice of Evgeni Kostitsyn who said: "Eat more beans to produce more gas!"

Enough gas is in the nation so there is no need for that extra gas!"
